

Mill Creek Restoration Project Environmental Education Program Facts – 2011

Since 1994 – over 15,000 students have participated in over 500 water quality monitoring field trips, planted over 10,000 trees, installed four rain gardens and cleaned up over 10 miles of stream banks. And MCRP has hosted 17 School Year-End Student Congress Events.

During the 2010-2011 school year – over 1100 students participated in 30 classroom presentations, 54 water quality monitoring field trips and 14 community service projects with the help of 70 adult volunteers.

2010 – 2011 Participating Schools :

Academy of World Languages
